

# The Albert P. Melniker Award

A discretionary award presented to a special person, group or structure that adds to the quality of the life of the Staten Island Community. It was named as a tribute to Albert Melniker, the founder of the building awards program, for his service, commitment, and dedication to keeping Staten Island a beautiful place to both live and work.

This year's Albert P. Melniker award is presented to Charles LaGanga and a special group of benefactors that donated time, labor and materials to make life more comfortable for a little girl with severe disabilities and her family.

That little girl, Alexia Trimarchi, was born with spastic quadriplegia cerebral palsy, mental retardation, a seizure disorder and gastronomy deficits, along with visual and verbal impairments and is in need of constant care.

Mr. LaGanga spearheaded an effort to renovate the Trimarchi family's Rosebank home with a 500 square foot addition that includes a new bedroom and bathroom. The group of dedicated professionals worked tirelessly to complete this project and no detail was overlooked

The following individuals and businesses are recognized and honored for their dedication and community service in greatly improving the quality of life of little Alexia and her family.

## **Charlie La Ganga** **Direct Access Partners**

Jerry & Barbara Smith
